TransRe Strengthens Cyber Focus

New Leadership Roles Support Analytic Insights and Client Development

NEW YORK, N.Y., July 16, 2024 – To better support the underwriting of an evolving line of business and to enhance product and service offerings, TransRe has made the following promotions:

Tina Kališnik to Global Portfolio Leader, Cyber

Diana Liu to U.S. Cyber Underwriting Leader

Tina joined TransRe in 2016 and has helped build TransRe's European professional liability business and client base, with an emphasis on cyber exposures. In addition to the new global portfolio role, Tina will continue to manage local cyber and professional liability client and broker relationships, where her technical knowledge and collegial approach are widely respected. Based in TransRe's Zurich office, Tina is an Accounting & Auditing graduate of the University of Ljubljana's Faculty of Economics.

Diana joined TransRe's actuarial department in 2019 prior to joining the U.S. Professional Liability underwriting team in 2022 with a focus on cyber. In addition to underwriting and marketing responsibilities, Diana has driven the integration of new cyber analytics and modelling capabilities into the underwriting process. Based in TransRe's New York office, Diana is a Fellow of the Casualty Actuarial Society and a Member of American Academy of Actuaries.

As TransRe continues to support the development of cyber protection, these promotions from within continue to demonstrate the strength and depth of in-house talent.

About TransRe

Established in 1977, TransRe is the brand name for Transatlantic Holdings, Inc., and its subsidiaries (including Transatlantic Reinsurance Company). TransRe is a wholly owned subsidiary of Allegheny Corporation, a Berkshire Hathaway company. Headquartered in New York with operations worldwide, TransRe offers the capacity, expertise, and creativity necessary to structure programs across the full spectrum of property and casualty risks.
