

DevOps Manager

We have the following job opportunity in our **New York City** office:

Description

The DevOps Manager will play a critical role in designing, implementing, and maintaining our cloud infrastructure, with a focus on Microsoft Azure, Kubernetes, Micro Services, Microsoft 365 SaaS, and Citrix Cloud. Expertise in development release, scripting in Infrastructure as Code (IaC) and cloud automation will be crucial in ensuring efficient and reliable cloud operations. You will work closely with cross-functional teams to ensure the availability, reliability, and performance of our cloud-based systems. Responsibilities will include, but not be limited to:

- Developing and executing DevOps strategy aligned with company goals and industry best practices.
- Providing leadership, guidance, and mentorship to a team of DevOps engineers, fostering a culture of collaboration, accountability, and innovation
- Acting as a subject matter expert on DevOps best practices, providing guidance and support to stakeholders across the organization
- Leading the design, implementation, and maintenance of automated DevOps pipelines for build, test, deployment, and monitoring for digital and data applications
- Collaborating with development and operations teams to implement CI/CD pipelines and automate deployment processes
- Developing (IaC) and automating Azure services provisioning thru Azure DevOps pipeline
- Identifying and prioritizing automation opportunities and requirements with the business and IT teams
- Documenting and maintaining automation scripts, workflows, and configs using version control systems
- Developing System images including but not limited to VDI, Server, VM, and Endpoint devices with drivers & firmware
- Ensuring security and compliance of cloud environments, focusing on data protection and privacy
- Providing Tier I/II/III support for application and cloud issues including but not limited to configuration, networking issues, performance, software bugs, deployment failures etc.
- Managing and optimizing Kubernetes clusters, ensuring high availability, scalability, and performance of containerized applications
- Using clear and concise language and format to write technical documentation and DR Runbook.

Requirements

- 7+ years of experience in a DevOps role or a related field
- 3+ years related experience leading and managing a team of DevOps engineers in a fast-paced environment, overseeing the design, implementation, and maintenance of infrastructure and CI/CD pipelines to support software development and delivery
- Seeking continuous improvement within role, processes, team and the IT organization as a whole.
- Strategic thinking skills with a strong technical background in software development, security, and operations, coupled with exceptional leadership and communication skills
- Demonstrates in-depth abilities to implement a comprehensive DevOps strategy to support the development and deployment of modern technologies such as AI etc
- Proven experience as a Cloud Operations Engineer or a similar role, with a focus on Microsoft Azure, Kubernetes, Micro Services, Office 365, and Citrix Cloud
- Experience with SDLC and rich experience with Deployment pipeline and release, Agile methodologies.
- Good understanding of network concepts, including TCP/IP, DNS, firewall, NAT and VPN
- In-depth knowledge of cloud automation and configuration management tools, such as Terraform, Azure Automation, or Ansible
- Solid understanding of microservices architecture, containerization, and orchestration using Kubernetes
- Strong knowledge of IIS, SQL, Apache, Nginx, Envoy

**Work Schedule**

TransRe is supportive of an agile work schedule, which may differ based on individual roles, your local office's practices and preferences marketplace trends, and TransRe's business objectives. This position is eligible for a hybrid work schedule with 3 days in the office per week, and 2 days remote.

Compensation

In addition to base salary, for this position, TransRe offers a comprehensive benefits package, paid time off, and incentive pay opportunity. The anticipated annual base salary range in New York for this position, exclusive of benefits, paid time off, and incentive pay opportunity is \$160,000 - \$185,000 This range is an estimate and the actual base salary offered for this position will be determined based on certain factors, including the applicant's specific skill set and level of experience.
