

IT – Development & Automation

We have the following job opportunity in our **New York City** office:

The Internship Program

- The program will be 10 weeks and will run from early June through early August
- Weekly work schedule will be 35 hours and follow a hybrid schedule, with 3 days in-office and 2 days remote. All interns will be in-office on Tuesdays and Wednesdays
- Internships will be paid in connection with the academic college year you will be entering in Fall 2025:
 - Freshman & Sophomores: \$23 / hour
 - Juniors & Seniors: \$25 / hour
- During the program, the intern group will attend a series of educational sessions to provide them with perspectives on our company and the broader reinsurance industry
- Training and social activities will be structured into the program, allowing for networking opportunities with peers and colleagues

Description

This role will allow you to gain exposure to the IT team which covers Development within TransRe. The Intern's responsibilities and learnings will include, but not be limited to:

- Exploring, evaluating and recommending process automation tools such as CI/CD automation, code review tools, testing automation and project management enhancements.
- Assisting to improve developer efficiency, productivity and optimization of various stages of the development cycle.
- Researching emerging technologies, conducting Proofs of Concept and delivering actionable insights to enhance TransRe's development processes.

Requirements

- Currently majoring in Computer Science, Software Engineering, or related field (or intending to major if not yet declared)
- Basic knowledge of development workflows, version control systems and CI/CD pipelines
- Experience or interest in automation tools (e.g. GitHub, Copilot/Actions, Jenkins Selenium, Jira Automation etc.)
- Availability to participate in the entirety of the 10-week program
- Ability to work in-person at our offices located at 165 Broadway, New York, NY 10006
